SEP 1955

MEMORANDUM FOR: Project Review Committee

SUBJECT : Additional Facilities for [REDACTED]

1. The MD/A Office is currently faced with the problem of providing to [REDACTED] additional facilities necessary for the adequate performance of its operation. The facilities were not provided for in the GSA - Agency leased building site.

2. The [REDACTED] is basically a warehouse and is presently being used as such. It does not include facilities for open storage, storage of flammable or hazardous material, storage of vehicles, loading and unloading of material, including truck dock, canopy, ramp, roads and paving, and a parking area for official and employee cars. It is estimated that \$83,855.56 will be needed for these facilities. (TABS 1 & 4.) [REDACTED] moreover, does not include facilities for a TSS Shop Area for the maintenance, modification and test of audio equipment, a Communications Engineering Building for the design, evaluation, fabrication, installation and maintenance of communications gear, a First Aid Room and area for storage of medical supplies and physical security requirements. It is estimated that \$61,225 will be needed for these facilities. (TABS 1 & 4.)

3. The Comptroller advises the Project can be financed from funds available to the Agency within existing limitations for the Fiscal Year 1954, and that vouchered funds should be used.

4. It is recommended that the Director approve these additional facilities [REDACTED] as proposed in the attached Staff Study (TAB A) and that funds in the amount of \$145,080.56 be authorized for this purpose.

151
L. K. WHITE
Acting Deputy Director
(Administration)
